## Overview

The Microsoft 365 Graph Connector now supports Stack Overflow for Teams. The connector indexes Stack Overflow for Teams posts, questions, articles, and top answers for access from Microsoft 366 Copilot, Microsoft Search, and other Microsoft 365 tools. You can find more information at [Microsoft Learn](#).

**NOTE:** This integration works only with Stack Overflow for Teams Business or Enterprise plans (not Stack Overflow for Teams Free or Basic).

**NOTE:** This is a Microsoft-owned integration. If you require support, please contact [Microsoft Graph support](#).
