About

Permissions

Quickly search and discover organizational knowledge within Microsoft Teams.

Stack Overflow for Teams is a private, secure home for your team's questions and answers. No more digging through stale wikis and lost emails—give your team back the time it needs to build better products. Stack Overflow for Teams' integration with Microsoft Teams connects your chat and your internal knowledge repository. Stay up-to-date with notifications of new information, search for existing answers, even start your question right from the chat platform. Our integration with Microsoft Teams is available on our Basic and Business plans, and you must have an active Stack Overflow for Teams account to use this app. Once you have successfully integrated the Stack

By using Stack Overflow for Teams, you agree to the [privacy policy](#) and [terms of use](#).

You will then be prompted with a card to Log In to your Stack Overflow Team.

Welcome!

Hello, I am the Stack Overflow for Teams bot. I can help you search for questions/answers within teams. Ready to get started? Sign in to your Stack Overflow account. Don't have a Team on Stack Overflow? [Learn more](#).

Note: If your Stack Overflow Team uses Single Sign-on (SSO) for authentication, the first installation of the MS Teams integration has to be done in a browser, by an admin.

On the following screen, add the Team that you want to be connected to your Microsoft Team.

Note: You can only have one Stack Overflow Team connected to one Microsoft Team.

Once you do so, the Stack Overflow for Teams tab in MS Teams will confirm that you're signed in, and ready to use the integration.

Stack Overflow for Teams 4:15 PM
Congratulations! You are signed in.
