ADMIN PRIVILEGES REQUIRED

Applies to: Free Basic Business Enterprise

Enterprise users can access their documentation here. Find your plan.

NOTE: only team admins and moderators can use the features discussed in this solution.

The subject matter expert (SME) feature allows knowledgeable members of your team to be easily recognized and acknowledged within your organization.

To assign an SME, team admins can click **Tags** on the left sidebar, then any specific tag. From a tag page, click on **Manage subject matter experts**.

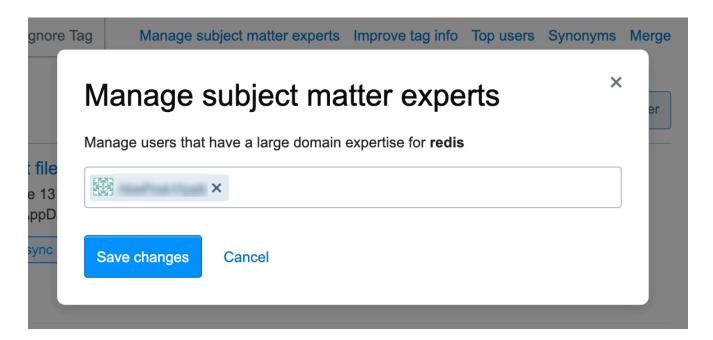

SO Business Demo questions tagged [redis]

Redis is an open source (BSD licensed), in-memory data structure store, used as a database, cache and message broker. It supports data structures such as strings, hashes, lists, sets, sorted sets with range queries, bitmaps, hyperloglogs, geospatial indexes with radius queries and streams. It also provides pub-sub capabilities. Use this tag for questions related to Redis and in-memory system. Learn more...

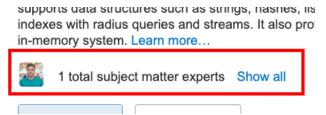

A dialog will appear allowing you to add and remove team members:

When a user is assigned SME status for a tag, they will be automatically subscribed to updates for that tag. By default, the tag notifications will be daily, but can be updated from email settings.

All users can click **Show all** to see which team members are SMEs for a particular tag.

When a question is answered by an SME, it will be denoted by the following:

Answer from a subject matter expert

We believe it's important to acknowledge those with special skills or knowledge in a particular topic. Subject matter experts are a wealth of knowledge, and there is so much to learn from them. Head on over to your team, and start populating your tags with SMEs today!
