Enterprise users can access their documentation here. Find your plan.

Stack Overflow for Teams is a collaboration and knowledge-sharing platform that enables people who are working towards a common goal to develop a collective knowledge base. Group members connect and share knowledge asynchronously within a single location that is structured and easy to search. Members can quickly find value and provide their expertise to others without being overwhelmed, distracted, or drawn off-topic.

Our Free plan gives you all of the following, for up to 50 seats:

- Users can find answers to questions in a distraction-free environment.
- Users can connect with others asynchronously and free from pings and notifications that come with other collaboration tools. Our Slack and MS Teams integrations are included.
- Searching for knowledge is quick and easy, getting users the information they need in an intuitive Q&A format.
- Users can tap into experts and those with experience in a specific topic or within an organization.
- Collaborate with other team members to overcome challenges.
- Connect with group members to gather the most relevant knowledge and work towards a common goal.
- Users can access historical knowledge in a safe environment.
