*This documentation is for **Stack Overflow Enterprise**. Free, Basic, and Business users can access their documentation [here](#). [Find your plan](#).*

## Overview

The Stack Overflow for Teams API allows you to access and update your site data, opening up a world of possibilities for automation, reporting, monitoring, and more.

## API v2 Explorer

One of the best ways to learn about and interact with API v2 is the Stack Overflow Enterprise (SOE) API Explorer. With it, you can test specific API methods and view the results. You can access API v2 Explorer and built-in documentation on your site at [https://\[your\\_site\]/api/docs](https://[your_site]/api/docs). You'll find the API Explorer in the **Try it** area.

You can also download a PDF of API v2 documentation here: [API version 2.3 documentation PDF](#).

Here's an example of the online documentation for a specific API method:

## Usage of /api/answers **GET**

### Discussion

Returns all the undeleted answers in the system.

The sorts accepted by this method operate on the following fields of the [answer object](#):

**activity** – last\_activity\_date

**creation** – creation\_date

**votes** – score

activity is the default sort.

It is possible to [create moderately complex queries](#) using sort, min, max, fromdate, and todate.

This method returns a list of [answers](#).

### Try It

API Access Key:  [manage keys](#) [link](#) | [default filter \[edit\]](#) ▼

|        |                                  |          |                                       |          |                               |
|--------|----------------------------------|----------|---------------------------------------|----------|-------------------------------|
| page   | <input type="text" value="699"/> | pagesize | <input type="text" value="699"/>      | fromdate | <input type="text" value=""/> |
| todate | <input type="text" value=""/>    | order    | <input type="text" value="desc"/>     | min      | <input type="text" value=""/> |
| max    | <input type="text" value=""/>    | sort     | <input type="text" value="activity"/> |          |                               |

You'll access all current API v2.3 methods at [https://\[your\\_site\]/api/2.3](https://[your_site]/api/2.3). You can access API version 2.3 methods with that URL *only*.

### API v3

Version 3 of the SOE API is also available. API v3 extends API v2 with new capabilities, an updated interface, and access to additional data types. [Learn more](#) about the features and benefits of Stack Overflow for Teams API v3.
