Overview

Moveworks now supports a Stack Overflow for Teams connector. The connector integrates core Stack Overflow for Teams Enterprise functionality into your workspace for faster, more efficient developer collaboration. You can search for relevant technical questions, look up detailed answers, and contribute comments to existing posts—all within the Moveworks environment.

You can find instructions for installing the Stack Overflow for Teams connector for Moveworks in their [connector library](#).

NOTE: *This integration works only with Stack Overflow for Teams Enterprise. It will not work with Stack Overflow for Teams Free, Basic, or Business.*

This integration is owned and supported by Moveworks. If you require support, open a ticket in the [MyMoveworks portal](#).

If you need further support or have questions, contact your site administrator.
