Applies to:

Free

Basic

Business

Enterprise

This documentation is for **Stack Overflow Enterprise**. Free, Basic, and Business users can access their documentation [here](#). [Find your plan](#).

As the post's author, you can delete one of your questions or answers by clicking its **Delete** link.

You'll see a confirmation box, which may contain additional warnings if a question has answers. The deleted post will disappear for all but you and site admins. You will still be able to see the question or answer displayed with a red background.

You can undelete a deleted post by clicking its **Undelete** link.

NOTE: deleting a post does not permanently delete it from the database. The site performs a "soft" delete, hiding the post from all but the author and site admins.

If you need further support or have questions, contact your site administrator.
