Overview

Stack Overflow for Teams improves collaboration, breaks down silos, and accelerates your organization's latest initiatives. Demonstrating these benefits to key stakeholders at your company, however, can be a challenge. To make it easier to show how your knowledge community helps your company meet its goals, we've enhanced the Weekly Dashboard Report to include the following key insights:

- Emerging topics at your organization
- Resource coverage for these emerging topics
- Top contributors and subject matter experts
- How your organization is finding answers

By default, your site will email admins the Weekly Dashboard Report. You can also have your site email the Weekly Dashboard Report to any stakeholder in your organization—they don't even have to be Stack Overflow for Teams users.

The report

The enhanced Weekly Dashboard Report has the following four sections.
